

# 'Land Fleet'

## Our Road Going Workhorses

Ideal for delivering our vessels, pontoons and equipment to sites and getting to those hard-to-reach places. Our fleet of vehicles and plant mean we are able to transport any of our kit to sites across the country in house, meaning we are not reliant on third parties. Our diverse range of kit, allows us to react and adapt to our client's needs.

We have 11 trailers in the fleet, from hydraulic tilting flatbeds, roller boat trailers to a trailer mounted crane and more! Our JCB telehandler is the workhorse of our yard, busy loading & unloading deliveries as well as lifting boats in/out of the water from our quayside and slipway.
