

CRANE TRAILER

Ideal for delivering our vessels, pontoons and equipment to sites and getting to those hard-to-reach places. This trailer mounted crane is unique with its clever dolly system that lets it roll along the bed of the trailer. This allows it to be stowed over the axles when the trailer is empty to keep the nose weight of the trailer safe and well under the legal limit.

| General | |
|---------------------|----------------------|
| Vessel Name | Rebel Crane Trailer |
| LOA | 7m |
| Beam | 2.3m |
